

## MOEJ and GEC host Seminar on the Joint Crediting Mechanism (JCM) Implementation in Indonesia

The Ministry of the Environment, Japan (MOEJ) and the Global Environment Centre Foundation (GEC) in collaboration with the Coordinating Ministry of Economic Affairs and the JCM secretariat Indonesia will jointly organize “Seminar on the Joint Crediting Mechanism (JCM)<sup>\*1</sup> Implementation in Indonesia” on 24 July 2018 at Le Meridien Jakarta, Indonesia.

Government of Japan is promoting the Joint Crediting Mechanism (JCM), and Prime Minister Shinzo Abe at COP21 announced, “Japan will, while lowering burdens of those countries, promote diffusion of advanced low carbon technologies particularly through implementation of the Joint Crediting Mechanism (JCM).”

In order to support the implementation of candidate JCM projects, MOEJ has established the Financing Programme for JCM Model Projects<sup>\*2</sup> to disseminate leading low carbon technologies. So far Japanese government has established JCM with 17 countries, and Indonesia has the largest number of model projects being implemented among those partner countries. The seminar is participated by government officials and business leaders from both countries, and it aims at sharing overview and progress of JCM and facilitating project development and scaling up those future projects.

### Overview of Seminar

**Date & Time:** Tuesday, 24 July 2018. 9:00-16:30 (Lunch is provided for participants)

**Venue:** Le Meridien Jakarta <<http://www.lemeridienjakarta.com/>>

- NTT FACILITIES, INC.
- Sharp Energy Solutions Company
- Tokyo Century Corporation
- Toyama city
- Toyota Motor Manufacturing Indonesia

\*1 JCM stands for the Joint Crediting Mechanism, and it is a bilateral cooperation mechanism that developing countries and Japan collaborate on GHG emission reductions projects and share the reduction result. For further information, please refer to the official website of JCM [here](#) or Indonesia government’s JCM website [here](#).

\*2 Ministry of the Environment, Japan has launched the “JCM Model Projects”. The purpose of this model project is to financially support the implementation of projects which reduce GHG emissions by utilizing leading low carbon technologies in developing countries, and in return seeks to acquire JCM credits for achievement of Japan’s GHG emission reduction target.

\* To register for the seminar, please send your name, organization name, phone number, and number of participants to [jcm-info@gec.jp](mailto:jcm-info@gec.jp) with title of “JCM seminar in Indonesia.”

\* Press conference will be held at 10:30 at the venue. Please contact GEC for further information.
