STATUS OF JCM IMPLEMENTATION IN VIET NAM

1. GENERAL INFORMATION ABOUT JCM

02/7/2013

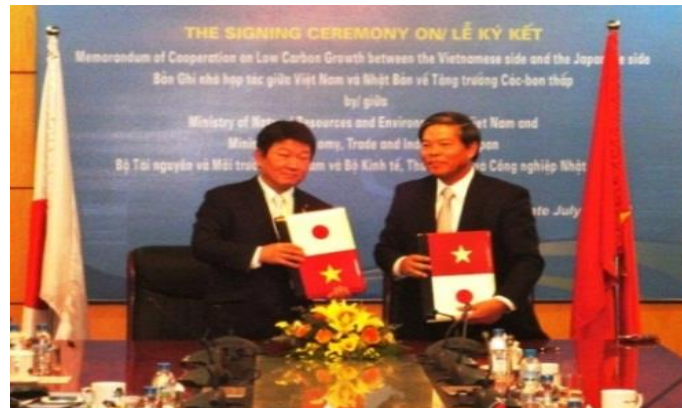

Memorandum on Cooperation on Low Carbon Growth between the Japanese side and Vietnamese side signed for the first time.

01/7/2017

Memorandum on Cooperation on Low Carbon Growth between the Japanese side and Vietnamese side signed for the second time.

Since 2013, there have been 17 countries participating in the JCM with a total of 69 methodologies and 51 registered projects.

Joint Crediting Mechanism (JCM) is a proposed mechanism for developing countries to promote the transfer and diffusion of low carbon technologies towards green growth in the host country, and support the implementation of Japan's international commitment to reduce greenhouse gas emissions

1. GENERAL INFORMATION ABOUT JCM

Japan pledges to support investment in the implementation of projects in Viet Nam in two forms:

- Ministry of Environment Japan (MOEJ) could support the maximum amount of **50%** of the technology investment;
- The Ministry of Economy, Trade and Industry (METI) and NEDO could support **100%** investment in technology, but the project participants must acquire it after the pilot or demonstration period of the project (3 years) at a discount rate (normally 23% discount).
- Funding from Japan is transferred to Vietnamese project members for technology purchase and transfer.

The JCM starts its operation as the non-tradable credit type mechanism:

- ❖ JCM credits will not yet be traded on the market.

1. GENERAL INFORMATION ABOUT JCM

The **Joint Committee (JC)** is a Committee comprising representatives of Vietnam and Japan to direct, coordinate and manage JCM implementation activities under the Memorandum of Understanding on Low Carbon Growth between Vietnam and Japan.

- JC is headed by 02 co-chairs representing Vietnam and Japan. On the Vietnamese side, the members participating in the Committee comprises of the Deputy Minister of Natural Resources and Environment (co-chair) and representatives of the relevant ministries.

The **Vietnamese JCM Secretariat** is a working group consisting of a number of officials from the Department of Climate Change, Ministry of Natural Resources and Environment, who assist the JC in Vietnam. The JC assigns the Secretariat with the administrative procedures regarding the implementation of the JCM projects

The **Third Party Entity (TPE)** of the JCM is an eligible legal entity appointed by the JC, and at the request of the JCM project participants in the task of evaluating and verifying JCM projects.

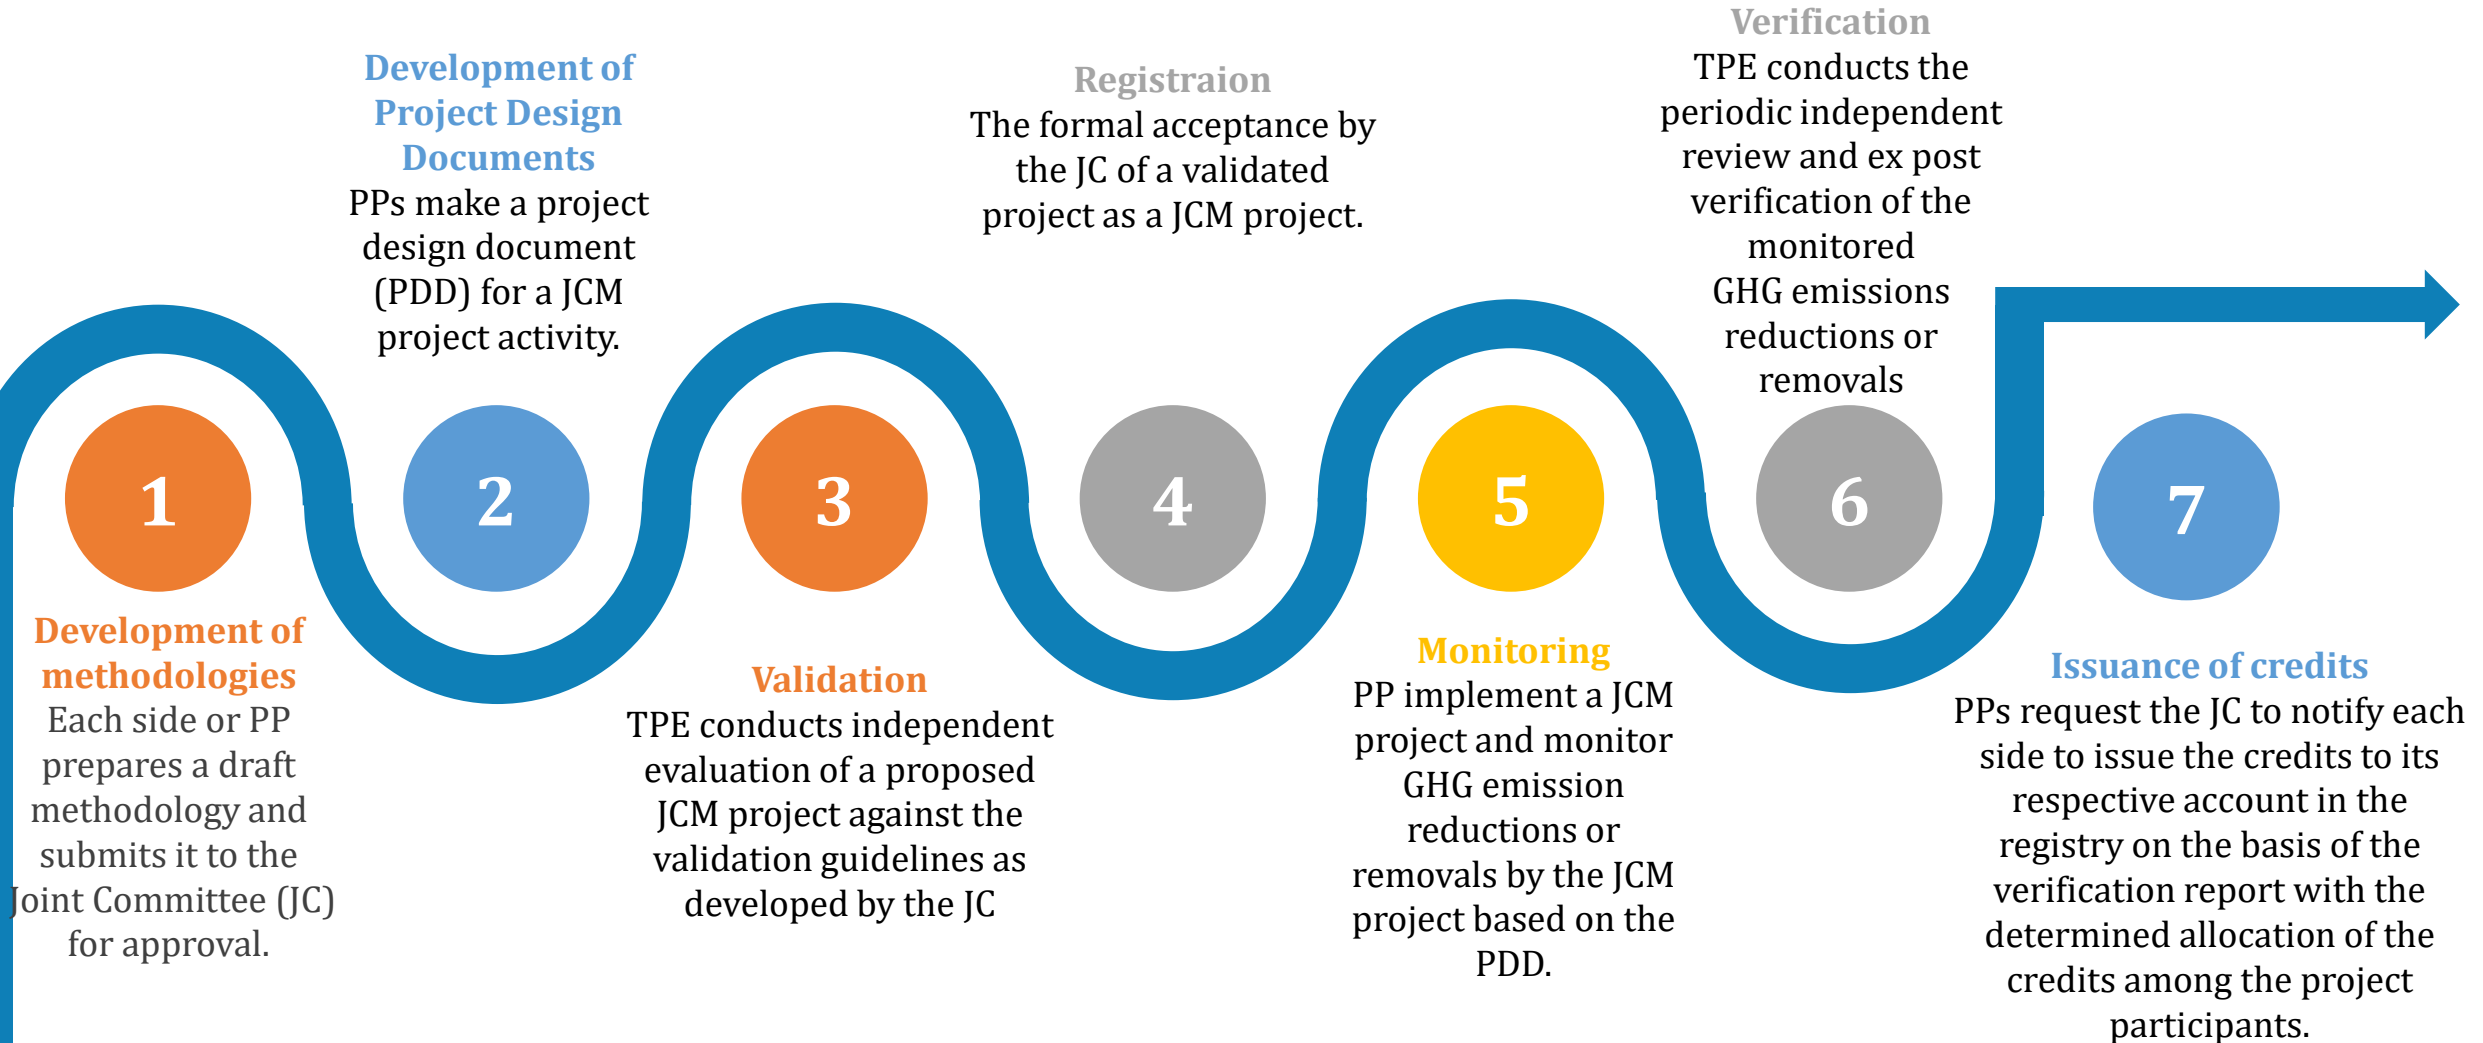

2. DEVELOPMENT AND IMPLEMENTATION OF JCM PROJECTS

Ministry of Natural Resources and Environment issues Circular No. 17/2015/TT-BTNMT dated 06/4/2015 stipulating the development and implementation of projects under the Joint Credit Mechanism in the framework of cooperation between Vietnam and Japan.

15 implementation areas:

- 
- | | |
|-------------------------------------|--|
| a) Energy production; | k) Transport; |
| b) Energy transmission; | l) Mineral exploitation and processing |
| c) Energy consumption; | m) Metal production; |
| d) Agriculture; | n) Emissions from fuels (solid, oil and gas fuels); |
| d) Waste treatment; | o) Emissions from production and consumption of Halocarbons and Sulfur hexafluoride; |
| f) Afforestation and reforestation; | p) Using solvents; |
| g) Chemical industry; | |
| h) Manufacturing industry; | |
| i) Construction; | |

2. DEVELOPMENT AND IMPLEMENTATION OF JCM PROJECTS

2. DEVELOPMENT AND IMPLEMENTATION OF JCM PROJECTS

Information on the methodologies, projects registered and credits issued to each project is posted on the the Vietnamese and Japanese governments' JCM websites

COP 24: Hội nghị cấp cao lần thứ 6 về Cơ chế Tín chỉ chung (JCM)

Trong khuôn khổ các sự kiện bên lề diễn ra tại Hội nghị COP 24, Nhật Bản đã tổ chức Hội nghị cấp cao lần thứ 6 giữa các quốc gia tham gia vào Cơ chế Tín chỉ chung (JCM) để gặp mặt đại diện của các nước thành viên. Thủ tướng Lê Công Thành đã tham dự Hội nghị này và chia sẻ về tình hình thực hiện JCM, tăng cường hợp tác song phương về cơ chế thị trường các-bon và khẳng định tiếp tục hợp tác cùng các quốc gia để phát triển và thúc đẩy cơ chế JCM trở thành cơ chế toàn cầu.

3. STATUS OF JCM IMPLEMENTATION IN VIET NAM

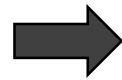

The current amount of credits allocated to Vietnamese side is 476 credits, which is equivalent to the emission reduction of 476 tons CO₂eq.

3. STATUS OF JCM IMPLEMENTATION IN VIET NAM

Japan

The Japanese side
proposed to extend
the Memorandum of
Understanding on
Low Carbon Growth
until 2030

Viet Nam

01

Evaluate the implementation of
the JCM since 2013

02

Organize conference for relevant
agencies regarding the
implementation potential of JCM

03

Study and propose the contents to
be amended and supplemented in
the Memorandum and regulations

THANK YOU VERY MUCH!
