

Q. What is the project cycle of the JCM? (validation, methodologies, etc.)

A. Please refer to JCM rules and guidelines.

https://gec.jp/jcm/agency/news/250916_tz/

Q. What kind of partnerships are encouraged between Tanzanian and Japanese private sector actors?

A. Any types of partnerships are encouraged.

Q. What is Tanzania's projected JCM credit supply potential?

A. We have no quantitative analysis on this matter.

Q. Will Tanzania integrate JCM with its national carbon registry or create a separate JCM registry?

A. It is up to the Government of Tanzania.

Q. Is it important that all technologies which will be used in the JCM project to come from Japan or we can acquire them from other countries?

A. The JCM doesn't restrict originating countries of a technology but contribution from Japanese company is necessary.
