

# Advanced Technologies to Tackle Climate Change:

## Application of the JCM and Project Development

<b>Date &amp; Time:</b>	<b>Monday, 7 December 2015 (13:30 - 15:00)</b>
<b>Venue:</b>	<b>Japan Pavilion</b>
<b>Organizers:</b>	<b>Global Environment Centre Foundation (GEC) Kansai Economic Federation (Kankeiren) Overseas Environmental Cooperation Center (OECC)</b>

It is necessary to cooperate with private sectors in order to facilitate diffusion of advanced low carbon technologies. The Joint Crediting Mechanism (JCM) aims to appropriately evaluate contributions from Japan for diffusion of these technologies to reduce GHG emissions in a quantitative manner. This event will introduce and discuss about the application of the JCM and JCM project development.

### Agenda

#### **Part I: Low-Carbon Technology Application and the JCM**

##### **13:30-13:35 Opening Address**

Dr. Hiroshi Sato, Vice-President, Kankeiren, and Chairman, Kobe Steel, Ltd. (KOBELCO)

##### **13:35-13:50 “Kansai Business Sector’s Contribution to Climate Change Mitigation and Adaptation”**

Mr. Minoru Furukawa, Chairman of Global Environment and Energy Committee, Kankeiren, and Chairman & CEO, Hitachi Zosen Corporation (Hitz)

##### **13:50-14:00 “Diffusion of Low-Carbon Technology through Joint Crediting Mechanism”**

Mr. Takaaki Ito, Deputy Director, Ministry of the Environment, Japan (MOEJ)

##### **14:00-14:10 “GEC’s Contribution to the JCM”**

Dr. Osamu Bannai, Assistant Manager, GEC

##### **14:10-14:25 “Viet Nam – Japan Joint Crediting Mechanism”**
